

List of sectors eligible for the Energy and Trade Intensive Industries (“ETII”) scheme

Firms with primary operations in the sectors listed below will be eligible for support under the ETII scheme. Further detail on eligibility and the application process will be published in due course.

The ETII sectors were identified via the EBRS review as those meeting certain thresholds for energy and trade intensity, in addition to sectors currently included in existing Energy Compensation and Exemption schemes. Energy intensity was based on electricity and gas consumption as a % of a sector’s GVA using ONS data. Trade intensity was based on goods trade using ONS data. To qualify as an ETII sector, the sector had to be above the 80th percentile for energy intensity (i.e., fall in the top 20% of sectors by energy intensity across the UK), and the 60th percentile for trade intensity (i.e., fall in the top 40% of sectors by trade intensity across the UK). The ETII scheme is subject to consideration of state aid rules.

We will publish further information on the ETII scheme by the end of March 2023, including guidance for firms that believe their operations are not correctly classified by Standard Industry Classification (SIC) code.

Sectors were defined under the SIC hierarchy. A more detailed description of each SIC code, including inclusions and exclusions, is available here [Link to definitions of SICs e.g. https://onsdigital.github.io/dp-classification-tools/standard-industrial-classification/ONS_SIC_hierarchy_view.html]
