Our Priorities

Building Safety:

Champion and support delivery of safe & high-quality buildings

Improve regulatory
clarity

Increase industry
competence

Improve construction
product information
and certification

Support delivery
through industry
guidance

Professional Indemnity
Insurance

People & Skills:

Energise our people, attract talent and enhance their skills for the future

Improve access
to opportunities through
enabling a more diverse and
inclusive industry

Boost all routes into
industry

Shift focus from qualifications
to competence

Preparing for
the future of construction

Our Priorities

Next Generation Delivery:

Boost productivity through digital adoption and industrialisation

Demystify Platform approaches and support the 4 CLC sectors to improve productivity

Develop and signpost policy & guidance through exploring the next Information Management Mandate

Coordinate digital initiatives to produce a Digital Navigator for business across the industry

Improve supply chain relationships through tackling payment practices and implementation of the Construction Playbook

Net Zero & Biodiversity:

Accelerate the Sector's transition to Net Zero and mitigate the impacts of climate change

A world leading performance measurement framework, to demonstrate progress towards Net Zero

Signposting to the relevant initiatives aligned to the 9 priorities for businesses to support industry learning

Communications and influence to share the sector's story and champion the policy change required to deliver Net Zero

Providing expert knowledge and bringing together experts to inform government and industry

Our response to the current economic and industry challenges

In the short term the CLC will lead in co-ordinating and mitigating the following challenges on behalf of the industry:

**1.
Confidence in the forward pipeline**

**2.
Migration Advisory Committee**

**3.
Product Availability**

**4.
National Policy Planning Framework**

**5.
Nutrient Neutrality**
