Kayleigh Hyde	Department for Business & Trade
Simon Leek	Sir Robert McAlpine

Actions

Action 24 - Industry to develop a template zero diesel sites plan and checklist, along with case studies to demonstrate how businesses can move toward zero diesel. Case studies will include examples of sites that have completely eliminated the use of diesel, as well as those that have developed interventions to significantly reduce diesel use.

Action 25 - Industry to explore opportunity to promote the development of a UK Government diesel elimination strategy for public sector construction.

Action 26 - Develop a client engagement strategy to deliver diesel-free sites
